KMB is proud to present our superbly designed "BUSES of the NEXT GENERATION". Being the first double deck easy access buses in the world, their inclusion into our bus fleet marks the beginning of a new era of bus service.

The introduction of "BUSES of the NEXT GENERATION" demonstrates our commitment in continuously upgrading our service standard to meet the ever growing expectations of our customers. The super low floor one step entrance leading to the spacious and comfortable saloon welcomes passengers of all ages with all levels of mobility.

The exterior of the bus provides a modern, highly attractive outlook, whilst its interior gives a welcoming, comfortable and user-friendly environment. It has a carrying capacity of 33 seated passengers plus 1 wheelchair (or 35 seated passengers) in the lower deck, and 57 on the upper deck. 36 more standing passengers can also be accommodated in the lower deck.
